I want to thank my family who has supported me throughout the whole process, encouraging me and believing in me, giving me advice along the way and making it possible for me to focus solely on my Thesis. I don't know what I would do without them.

My deepest thanks also go to my boyfriend who supported me and made it easier for me to relax in stressful times. I would also like to thank my friends who helped me wherever they could and who showed interest in my Thesis.

A big thank you to my Supervisor Anne Martensen who invested time and effort into me and this thesis. She gave me great advice and guided me in the right direction where needed.

I am grateful to Christian Persohn, Udo Ley and Marcus Nickel who voluntarily participated in my interviews and shared their knowledge as well as to all participants of the focus group who generously gave their time and shared their information and.
